# ■ DEVELOPMENT Roadmap

#### **I** Disclaimer

The SpotterNFTS are not securities. Each NFT represents a few characters on the streets of Lagos in art form. Although, 50% of the capital raised from these NFTs will be set aside to setup a fund for investments and to back holders.

#### **I** Goal

Our goal with SpotterNFT collection is to bring PASSIONATE collectors and investors who are INTENTIONAL the most USEFUL "real world utilities" possible and in the long term, seeing their efforts rewarded. There are a lot of concepts and ongoing partnerships that are ready to go, but in the meantime, this is where we will begin from;

- | Holders Backer & Investment Fund (HBIF)
- Setting aside 50% of total earnings from sales to setup a "Holders Backer & Investment Fund (HBIF)" with
- Every holder having A SHARE of the total fund portfolio (ie you earn dividends).
- 100% of royalties will go into the HBIF to partly aid the expansion and longevity of the fund thereby increasing holders SHARE VALUE.
- All holders get a percentage of monthly REVENUE in proportion to NFT ownership with proceeds sent directly to the wallet holding SpotterNFT.

## | Spotter Community Growth

- Setting up a fully furnished, decadent and loungy, Classic and exclusive Spotter Clubhouse with Soaring Ceilings, a car gallery room, private lounge, Restaurant and bar. A perfect place to kick back, share a meal, waste a day away and get familiar with a Cubana Laurent-Perrier.
- Access to a FULL-SERVICE Spotter garage for holders to get their cars pampered with a section for the public.
